### Young Adults Ministry Report - 2009

For the year ended 2008

Young adults was started last year 2008. In the year of 2008 we participated in a 10 session program called Driven by Eternity.

This was a real eye and heart awakening for all that were involved. The questions were asked. Are we impacting people for Gods Kingdom???? What were we living for???? and will God judge us on what we were doing or what we were called to do.

This was so exciting that we have continued with Young adults in 2009. The year was kick off with 5 series DVD called LIFE INTERRUPTED.

We presently have about 15 young adults ranging between the age of 17-30 and some oldies still trying to get in. **LOL**. We are not looking for big numbers, but if the group grows any further we will look at splitting. We meet on a fortnightly basis at our home. This year I felt God ask me to start each session with worship.

Once the 5 sessions is finished we will continue by meeting together then splitting males and females so we can go deeper into each other's lives. Young Adults is a place and an opportunity for them to grow and be taught the word of God, lives will be changed and with the help of the Holy Spirit they will never be the same.
